

“Voor een veilig
digitaal Nederland”

// Functie: Network specialist in support

Would you like to work for a leading Cyber Security company, to secure our digital society? This is your opportunity. Let's beat cybercrime together, apply now!

Tasks

As network specialist in support you are responsible for successful implementation of our products, providing support and train our customers. You will be based at the HSD (The Hague Security Delta) campus where you will work independently on customers and Compumatica projects. You will build and maintain a professional and good relationship with our customers. Once a week you will be present on our headquarter in Uden for meetings and to gain a better relation with Compumatica and our colleagues.

Overview tasks:

- Support to partners and customers via e-mail and phone
- Support to partners and customers by installation and configuration (on-site)
- Implementation of complex security systems like secure e-mail gateways, VPN gateways, firewalls
- Technical accompany for the sales department
- Support QA department
- Create training documentation and train customers (internally/externally)

Profile

Extensive IT knowledge about networks, routers, etc. is important to understand the customer challenges. We expect that you have the basic knowledge of cryptography, which is necessary to understand our products.

As network specialist support it's required to work independently and have a friendly but professional attitude. We don't think in problems, but how to solve the challenges.

Overview profile:

- College/university background with preference a successful study in information technology
- Practical experience and good knowledge in the field of IT security
- Experience in the configuration and maintenance of active network components such as routers and switches
- Knowledge of networks and network protocols (IPv4 and IPv6)
- Basic knowledge of cryptography
- Familiar with Linux/Unix operating system
- Fluent English in speaking and writing
- Willingness to travel (mainly in The Netherlands)

“Kom werken bij de enige Nederlandse crypto fabrikant!”

Who are we?

Compumatica is a leading Dutch Cyber Security company that develops, produces and implements their own products. Each day more than fifty employees are working on security for governments, large enterprises and individual citizens.

At Compumatica we work with short communication lines. Our style of work is the same to our customers, we want to create 'personal contact' with every customer. We deliver tailored security solutions, every new customer case is a new challenge. With our slogan "Cybersecurity with a personal touch" we point out that customers are our first priority.

'Cybersecurity with a personal touch'

What can we offer?

A challenging fulltime job in a at the HSD campus (next to the station NOI Den Haag) including a parking spot. Besides a professional working environment, Compumatica offers a competitive salary, based on a 40 hours workweek.

Enthusiastic?
